1 Overview

We use the NekoDTD tool packaged as a Cocoon Generator to automatically generate some hyperlinked DTD reference documentation. Note that these references do not reflect the modularity of our DTDs, they are primarily "user-oriented help" documentation.

The actual DTDs are located in the Forrest distribution at `main/webapp/resources/schema/`

2 The generated documentation

Generated documentation for Apache Forrest document-v20 ...

- document-v20
- howto-v20
- faq-v20

Generated documentation for Apache Forrest document-v13 ...

- document-v13
- howto-v13
- faq-v13
