1 Introduction

Forrest is still quite young, so there are known issues. Standards compliance is a definite major goal. Please send patches for the Forrest stylesheets to ensure such compliance.

> **Note:**
> For your testing, use the Forrestbot-generated website at our Zone testbed because that reflects the current SVN code.

2 HTML

Tested using the W3C HTML Validation Service (validator.w3.org).

The "`pelt`" skin validates as HTML 4.0.1

The "`tigris`" skin validates as HTML 4.0.1

3 WAI

See Web Accessibility Initiative (WAI)

"W3C WCAG - AAA Compliance" using webxact.watchfire.com

Issues ...

1. Priority 1: No errors, some warnings.
2. Priority 2: Some errors, some warnings.
3. Priority 3: Some errors, some warnings.

4 CSS

Jigsaw: jigsaw.w3.org

Issues ...

1. CSS 2: No errors, some warnings.
